

**LBG-3000**  
**Paper Handle brush glue machine**

**Introduction:**

The machine is to make the paper handle to brush glue, through the conveyor belt, the manual can be attached to the paper bag.

**Features:**

1. Simple operation, low noise, high efficiency and simple maintenance.
2. The glue position is controllable and the glue is uniform.
3. Adjustable speed and free speed.

**Technical Parameter:**

|                          |                  |
|--------------------------|------------------|
| Type                     | LBG-3000         |
| Max. handle height       | 180 mm           |
| Brushing glue Width      | 10、20、30 mm      |
| Max.Speed                | 20 m/min         |
| Total Power              | 250 w            |
| Weight of Machine        | 400 kg           |
| Overall Dimension(LxWxH) | 3550x700x1000 mm |
